

Jiranat Pattansintara

Full-Stack Developer | Web & Product Development
Samut Prakan, Thailand · j.pattansintara@gmail.com

SUMMARY

Web developer with professional WordPress experience and hands-on experience building full-stack web applications and independent products. Skilled in modern JavaScript development, API integration, databases, cloud deployment, and AI-assisted development. Experienced in taking products from system design through implementation, testing, and deployment.

WORK EXPERIENCE

Sunnysideup Studio — WordPress Developer 2023–Present

- Build and maintain responsive WordPress websites using Elementor, Gutenberg, and Breakdance.
- Customize WordPress functionality using PHP and JavaScript, with ACF and WooCommerce.
- Handle data migrations, SEO/performance optimization, and production troubleshooting.

SELECTED PROJECTS

VextaCore — Quantitative Sports Analytics Platform

- Built a full-stack sports analytics platform comparing model-estimated probabilities with market odds to identify potential market/model divergences.
- Developed automated data processing and market-edge scanning workflows with signal validation, database persistence, and Telegram notifications.
- Implemented authentication, subscription access control, Stripe Checkout, and webhook-based payment verification.

HomeKitchen — Full-Stack Web Application

- Designed inventory and order logic to maintain accurate stock after customer payments and prevent overselling.
- Built an API-driven application with Next.js and Tailwind CSS, focusing on business rules and data consistency.

Panstr — Decentralized Forum Application

- Built a forum-style application using the Nostr protocol with authentication, posting, editing, and category-based filtering.
- Solved cross-category feed issues through category-specific tagging and filtering logic.

EDUCATION

King Mongkut's University of Technology Thonburi (KMUTT)

B.Sc. Media Technology · 2015–2018

WeStride Institute of Technology

Full-Stack Development Bootcamp · Apr 2026–Aug 2026

Completed intensive project-based training in modern full-stack web development.
